Dear Ruth Kissane,

I think that Denmark needs a proper magazine on holistic health: alternative way of living, natural foods and medicine and spriruál issues.

At the moment there is only one Danish magazine dealing with these subjects, and I am sure that there is plenty of room for one more. Together with three friends I hope to start a new magazine within the next six month.

The reason for this letter is partly to ask for you help, partly to open up for a possible cooperation in the future.

The magazine will deal with the above mentioned subjects seen from a Danish *and* a global perspective. Therefore I am very interested in establishing good relations with simular foreign magazines and papers. In each number I would like to include at least one well-researches article from abroad, translated into Danish of course.

If you think that it could be interesting to sell articles to a comming-up Danish monthly Magazine, or to coorporate in any other way possible, I kindly ask you to write me some words and mail me a sample of your publication. If you need payment for the sample please let me know.

I look very much forward to hearing from you as soon as possible.

Yours sincerely,

Jakob Vedelsby
